Summary

Aspiring Full Stack Developer with hands-on experience in designing and developing responsive web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js). Seeking an entry-level full stack developer role where I can apply my technical skills, contribute to high-quality software solutions, and grow within a professional development environment

Education

Kothiwal Institute of Technology and Professional Studies
Bachelor of Technology (B.Tech) in Computer Science & Engineering
(Pursuing)2022-206

Ambika Prasad Inter College
Senior Secondary
2021-2022

Ambika Prasad Inter College
High School
2019-2020

Projects

Job Portal Web Application-MERN Stack | JWT | REST API | Role-Based Access Control

Developed a full-stack Job Portal application that connects recruiters and job seekers using the MERN stack with secure authentication.

Implemented JWT-based authentication with role-based access for multiple user types:-

- Admin:- Manage users, approve recruiters, monitor job postings, and oversee platform activity
- Recruiter:- Post jobs, manage job listings, and view applicant details
- Job Seeker:- Register profile, browse jobs, and apply for open positions

Designed and developed RESTful APIs for user authentication, job postings, applications, and profile management

Built a React-based front-end with protected routes and role-based navigation

Implemented form validation, secure session handling, and authorization checks

Ensured a modular back-end architecture with separate layers for authentication, routing, controllers, and database models

Skills

Frontend:-
React.js, HTML5, CSS3, JavaScript, Redux, Tailwind CSS

Backend:-
Node.js, Express.js

Database:-
MongoDB, Mongoose

Tools & Platforms:-
Git, GitHub, Postman, VS Code
Vercel, Render

Others:-
REST APIs, JWT Auth, Deployment
